Revegetation Project Growing Strong

"Bridport is on a roll with another project underway guaranteed to provide an economic boost to our town and region. The new Surf Life Saving Club is half way through its Revegetation project designed to screen, beautify and rehabilitate the surrounds of the new club house currently under construction.

The six strong team has made fantastic progress with clearing, ridding the area of sea spurge - an ongoing exercise - and planting mainly indigenous trees and shrubs. It is hard yakka and they are to be congratulated for taking pride and ownership of their work. Local passers-by stop and offer words of support which has been surprising and much appreciated. Patsy Cameron has also been invaluable with guidance since discovering on site at least six plants used by the original custodians of this foreshore area - for food, healing and weaving."

NATIONAL TREE DAY

Are you thinking of running an event for Plant Ark's National Tree Day on July 28th or School Tree Day on July 26th? If so, NRM North may be able to help.

We are looking to support a number of national tree day events in the NRM North region by purchasing some trees and equipment for the event and also sending staff out to help with the planting on the day.

If you would like some help, please get back to us with details of your event (date, where, times, etc) and the number of trees you would require. Depending on demand, we may not be able to fund all projects so preference will be given to those who get back to us soon.

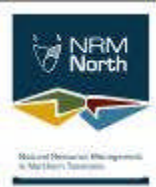

Any questions, please don't hesitate to give me a call on the below numbers or drop me an email. For more information on National Tree Day, please see the below email from Planet Ark.

FORESHORE - HISTORY SIGNAGE UPGRADE

New signs providing continuity with the interpretation signs on the River-Forest Walk have been installed recently.

before

Funding of \$9500.00 in December 2012 with a grant from Tasmanian Community Fund enabled the original 19 signs, many degraded by weather and vandalism, to be replaced with a durable re-cycled product, preserving historical information for residents and visitors of all ages to enjoy.

after

QR codes on each sign enable walkers to access the home page of the newly completed Bridport Walking Track web site for more information on related community groups, history, flora and fauna accompanied by stunning photographs showcasing Bridport's attractions.

Another Bridport Innovations Inc. initiative. Many thanks to the those who volunteered their time to assist the project with editing, and in-kind support with freight and installation.

Tin Dragon Trail Cottages and artist John Gibb have teamed up to present an art retreat.

We have seriously sharpened our pencils to provide the event at very reasonable cost, in order to promote similar other events in our region in the future. We are hoping to present a program of events during the year potentially including watercolour (beginners and advanced), pottery (raku firing) and Gregorian chanting... But we need to "get the ball rolling" with this first offering!

Watercolour retreat for beginners.

It is a challenging course, but there is a lot of fun leaning the techniques. The course covers 10 hours of intensive demonstration and tutoring, with award-winning watercolour artist, John E Gibb. Basic drawing skills will be taught where needed and it will be assumed that each participant will have had no previous experience working in the medium of watercolour.

Free Headlight Checks for Dorset Residents

Dorset residents will once again be offered the opportunity to have their car headlights checked out before winter really sets in.

The Dorset Community Road Safety Partnership today announced that a free headlight check and alignment service would be available on 4th & 5th June at Barnett Motors, 21-23 George Street, Scottsdale.

In addition, valid health care card holders can receive a free 28 point safety check.

Dorset Community Services Manager Susie Bower said that this road safety initiative was designed to ensure drivers were as clearly visible as possible given the oncoming winter darkness.

"Community feedback provided to the Community and Police Advisory Group (CPAC) has been that action needed to be taken in this area."

"Strong anecdotal evidence has suggested that many people have missing or misdirected lights on their vehicles which is a danger to themselves and other road users," she said.

Ms Bower pointed out that the Community Road Safety Partnership is collaboration between Dorset Council and the Department of Infrastructure, Energy and Resources.

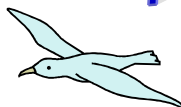

Motorists are advised that an adjustment and checking of lights is free but any necessary repairs would incur a cost.

"To limit waiting periods bookings are advised. To book ring Barnett Motors on 6352 2973" Ms Bower said.

FREE PUBLIC FORUM - Tuesday 11th June 2013

Energy Policy – where do the parties stand?

Our society is dependent upon abundant sources of energy – liquid fuels, gas and electricity – for its continued prosperity. However, energy policy is a controversial area: from imposing a cost on greenhouse gas emissions from electricity generators, through the role able to be played by renewables, to Australia's petroleum fuel security, questions and arguments abound.

This forum is designed to allow you to question the candidates about their party's energy policies.

FREE PUBLIC FORUM – ALL WELCOME

Back to Basics

We are back to basics at the Digital Hub in the month of June (see [Group Training Schedule June](#)) with classes tailored for those who are new to computers and digital technology. The online experience can be a bit overwhelming and to help build your confidence the classes in Internet Basics, Staying Safe on the Internet and Email Basics will benefit you. If you want to gain a better understanding of how to locate and store your files and folders on your computer there is a class designed for you.

Classes in the iPad are always popular and designed for those who have never used a computer. In fact mobile technology (Tablets and smartphone) has led the technological revolution and now it is easier than ever to begin your digital journey.

If you missed Skype training in May, there is a class conducted in June, so please check the [schedule](#) and register as soon as possible.
